

Opportunities for Graduates

Fore is a leading independent advisor delivering expert advice and bespoke services to clients throughout the UK in the transport and development sectors. We are an energetic and ambitious company and due to our increasing workload, we are seeking to recruit exceptional individuals to join our team to help us deliver an interesting variety of projects for our growing client base. We have opportunities for a graduates based in either our Leeds or Newcastle offices, who would work on projects across the UK.

This is an exciting opportunity to join an experienced and growing team and work on a range of projects for a wide variety of clients. At Fore we encourage personal growth and professional development. We offer a varied workload including advice to developers, transport modelling, transport scheme appraisal, working with public transport operators and developing transport strategies and funding solutions for local authorities.

We are looking to appoint exceptional graduates with sound analytical and communication skills, who takes a logical approach to problem solving. The role will involve analytical work using spreadsheets and specialist transport planning and modelling software, report writing and communication with and without the internal team.

No specific transport-related experience is required as full training will be provided. However, the ideal candidates are likely to have a BSc/MSc in an analytical subject such as mathematics, science, economics, geography, or engineering.

How to Apply

Please submit your CV and a covering letter explaining the skills and experience you could bring to our team to enquiries@foreconsulting.co.uk.

Fore is not accepting recruitment agency CVs for these positions.
